

Download Automotive Labor Hours Guide

Flat-rate labor is applied to labor guides. A certain amount of time is involved on replacing a car starter on a certain year, make and model vehicle. If the labor guide dictates it takes 2.3 hours to replace the starter, then the customer pays for the new starter, plus the 2.3 hours of labor to install it. Repair Estimator Guide. Auto Repair Estimator. Not sure how much it will be to have a service done to your car? The Repair Estimator is a quick and easy way to get cost estimates for the most common services or repairs. Auto Repair Estimates. Review and compare the total amount of labor time among your three estimates. The number of hours should be relatively the same on each estimate and will determine the accurate amount of hours your car repair should take. If you have any questions or concerns, contact the mechanic and ask him or her to review specific details in your repair
