

Download Baby Desert Eagle Manual

The Desert Eagle is a semi-automatic handgun notable for chambering the largest centerfire cartridge of any magazine-fed, self-loading pistol. Magnum Research Inc. (MRI) designed and developed the Desert Eagle. The design was refined and the pistols were manufactured by Israel Military Industries until 1995, when MRI shifted the manufacturing contract to Saco Defense in Saco, Maine. All Desert Eagle 1911 series 70 slide and frame rails are machined to aerospace tolerances, delivering accuracy that will match any custom gun. 135 Item(s) Found Page 2 Prev 1 2 3 Next.
