

Download Bipolar Careers Keeping A Job With A Mental Illness

Bipolar disorder, also known as manic-depressive illness, is a brain disorder that causes unusual shifts in mood, energy, activity levels, and the ability to carry out day-to-day tasks. SOURCES: Ken Duckworth, MD, medical director, National Alliance on Mental Illness, Arlington, Va. Matthew Rudorfer, MD, associate director of treatment research, division of services and ...A non-profit organization aimed at building a stronger future. About. Lens on Leading: BLOG; Our History; Innovation; Leadership; Governing Board One in four adults suffers from mental illness in any given year. While that is a sobering fact, the even more frightening issue is that there simply aren't enough mental health resources to go around – meaning those who need help often fail to get it.
