Online homework and grading tools for instructors and students that reinforce student learning through practice and instant feedback. An alternative approach to Pre-Algebra, Algebra 1, or Algebra 2! The reason that we named our program “Algebra: A Complete Course,” is that we believe the best way to learn Algebra is to start at the beginning and end at the end! In this program you will find a complete study of the essential material covered in a traditional Algebra 1 and Algebra 2 course. The Geometry Program addresses two of the most important aspects of mathematics instruction. First, the inquiry-based video format contributes to the engaging of students more personally in the concept development process. Highlights of Calculus. MIT Professor Gilbert Strang has created a series of videos to show ways in which calculus is important in our lives. The videos, which include real-life examples to illustrate the concepts, are ideal for high school students, college students, and anyone interested in learning the basics of calculus.
