Newly revised to reflect the latest developments in the field, this thoroughly updated eighth edition of Reinforced Concrete Design incorporates the changes in design rules arising from the publication of the 2014 American Concrete Institute (ACI) Building Code and Commentary (ACI 318-14). This book provides an extensive coverage of the design of reinforced concrete structures in accordance with the current Indian code of practice (IS 456: 2000). As some of the Indian code provisions are outdated, the American code provisions are provided, wherever necessary. In addition, an attempt is made to integrate the provisions of IS 456 with earthquake code (IS 13920), as more than 60% ...
