

# Download Entrepreneurship Development In Agriculture

development of entrepreneurship benefits by linking innovations, risks taking, vision and organizing skills. Entrepreneurship is the capacity of an individual toEntrepreneurship is basically the state of mind of an individual, if you wish, you can be an entrepreneur. The idea of the development of entrepreneurship in agriculture and allied sciences becomes more relevant because, in the Indian context, we have accepted agriculture as part of our culture.Entrepreneurship, value chains and market linkages are terms that are being used more and more when talking about agriculture and farming. Many small-scale farmers and extension organisations understand that there is little future for farmers unless they become more entrepreneurial in the way they run their farms.Entrepreneurship Development in Agriculture Themes/Topics.
