In radio-frequency engineering, a transmission line is a specialized cable or other structure designed to conduct alternating current of radio frequency, that is, currents with a frequency high enough that their wave nature must be taken into account. Transmission lines are used for purposes such as connecting radio transmitters and receivers with their antennas (they are then called feed ...ihale 2010-3 konu o10447386 9781584505648 Ahearn, Luke Author 3D Game Creation July 2008 4 1 o10914869 9781608768851 3D imaging : theory, technology, and applications / editors, Emerson H.
