Taste, gustatory perception, or gustation (Adjectival form: gustatory) is one of the five traditional senses that belongs to the gustatory system.. Taste is the sensation produced when a substance in the mouth reacts chemically with taste receptor cells located on taste buds in the oral cavity, mostly on the tongue. Taste, along with smell and trigeminal nerve stimulation (registering texture ...Hearing, or auditory perception, is the ability to perceive sound by detecting vibrations, changes in the pressure of the surrounding medium through time, through an organ such as the ear. Sound may be heard through solid, liquid, or gaseous matter. It is one of the traditional five senses; partial or total inability to hear is called hearing loss.. In humans and other vertebrates, hearing is ...Test Bank MULTIPLE CHOICE 1. To promote parent-child attachment with a healthy newborn, what should the nurse do? a. Encourage close physical contact as soon as possible after birth. b. Do not allow the newborn to remain with parents until the second hour after delivery. c. Never leave the newborn alone with the mother during the first 8 hours after delivery. For tutoring please call 856.777.0840 I am a registered nurse who helps nursing students pass their NCLEX.
