Praise for *Statistical Techniques for Forensic Accounting* “Financial statement fraud has never been a more serious threat to the integrity of our capital markets than it is today. Professor Dutta discusses the auditing and statisticalIn this book I have tried to explain why I think that percentages are “the most useful statistics ever invented”. I hope you agree. But even if you don’t, I hope you now know a lot more about percentages than you did when you started reading the book. I also said I would tell you why 153 is one of my favorite numbers.
