Kubota L35 Parts Catalogs & Information. Extensive diagrams and resources for Kubota equipment There are different variants of the ZD326, see F.A.Q. The parts listed below are for ZD326P. Please call Messicks with the serial number to verify the proper parts to fit other variants. Okay, here's what I can tell you: anytime wheels are turned fully left or right and there is a load (on the ground & medium or higher speed) the inside rear wheel jerks when turning (left wheel on left turn & right wheel on right turn)-it's a very violent jerking-if you're not prepared for it could buck you off machine! I have the JD350 9 ft (purchased because it was cheaper than others) and it would work for your banks. For a price point I paid \$950.00 and then had to chisel all the old rivets off, add all new blades, and replace 1/3 of the teeth.
