

Download Lee Reloading Manual Cal 30 Carbine

Those prices drove me to reloading .30 Carbines. Handloaded .30 Carbine cartridges feed smoothly with a case mouth diameter of .334 inch. When handloading cartridges for the M1, I pay attention to bullets, powders and reloading techniques to produce loads that cycle the Carbine's action and provide top velocities from a small amount of powder ...Re: Reloading the 30 carbine Don't worry about the amount of powder, the .30 Carbine is essentially a magnum 30-caliber round designed from the start to be used in a rifle barrel. Factory specs call for a muzzle velocity from an 18-inch barrel of a hair under 2000 fps, which is about what you'd get from a hot 357 load from the same length barrel..30 M1 Carbine (Lee Precision Data) reloading data with 69 loads. Using bullets from Jacketed, Lead. Powders include Hodgdon, Vihtavuori, Accurate, IMR, Alliant, Winchester
