THUNDER..A name synonymous with car audio for over 20 years has a reputation for power, performance, and reliability.The THUNDER amplifier line has seen numerous technological advancements throughout its life and continues to be one of the most recognized and sought after products in the car audio world today.Small in Size, Big in Power. The THUNDER75.4 is a 400-watt RMS amplifier designed to be installed in almost any vehicle due to its small chassis size.Its power capability and wiring versatility makes it a perfect choice for running multi-channel speaker systems without compromising musical output or quality.I recently bought a 2006 Five Hundred for my wife. I noticed when I turn the car off, my GPS and my XM Skydock are still powered on. I have a '99 Honda Civic Si that, when the keys are out of the ignition, the accessories power off.
