

Download Nikon D3100 Dslr Manual

The Nikon D3100 is a 14.2-megapixel DX format DSLR Nikon F-mount camera announced by Nikon on August 19, 2010. It replaced the D3000 as Nikon's entry level DSLR. It introduced Nikon's new EXPEED 2 image processor and was the first Nikon DSLR featuring full high-definition video recording with full-time autofocus and H.264 compression, instead of Motion JPEG compression. A new DX-format CMOS image sensor and image-processing engine, EXPEED 2, both developed by Nikon enable capture of high-definition images with superior image quality. Auto ISO is a very useful feature found on many modern digital cameras. Nikon has been offering it for more than 6 years now, but they greatly surprised me by subtly changing the way it works in the D7000 (which I own). High-Power 500mm/1000mm f/8 Manual Telephoto Lens Whether you're an amateur photographer now learning the ins and outs of the art, or an experienced veteran with many years in professional photography, there's nothing like the
