Concept Development in Nursing: Foundations, Techniques, and Applications by Beth L. Rodgers PhD RN FAAN Paperback \$59.39 This nursing theory text is an examination of the conceptual and philosophical ideas behind nursing theories from a transcultural perspective. American, German, and Norwegian authors have contributed. The purpose is to systematically analyze nursing's major theoretical work through its conceptual and philosophical foundations. Includes bibliographical references and index Adaptation as a basic conceptual focus in nursing theories / Donna Schwartz-Barcott -- Human needs and nursing theory / Jacqueline Fortin -- Applying the concept of need to patient empowerment / Penny Powers -- The concept of interaction in theory and practice / Susanne Wied -- The concept of ... This second edition is the perfect companion to original theoretical works in nursing for a better understanding of both the theories themselves and the essential questions about nursing theory development. Rather than being a nursing theory survey, the text provides the reader with a deeper ...
