

# Download Sap Fi Supporting Projects Guide

Many visitors of our blog are beginners in SAP world and we often received requests to publish a tutorial about SAP for beginners. For this reason, we asked one of the senior SAP consultants to share a story about his journey to working in SAP field. When someone says SAP program, they can mean a lot of different things. In this article we define what is SAP program and what it is used for by companies. SAP implementation (Systems, Applications & Products implementation) refers to the name of the German company SAP SE, and is the whole of processes that defines a method to implement the SAP ERP enterprise resource planning software in an organization. The SAP implementation method described in this entry is a generic method and not a specific implementation method as such. Jürgen Butsmann is part of the Global Business Development team for SAP S/4HANA, and is responsible for the go-to-market (GTM) of SAP S/4HANA in the EMEA region(s). Thomas Fleckenstein is the chief product owner of SAP S/4HANA analytics. He has shaped and evangelized the concept of embedded analytics in SAP cloud solutions such as SAP Business ByDesign and SAP S/4HANA Cloud.
