spencerdub 10th August 2015 at 12:55. Great list, thanks! One style of notetaking that I didn't see mentioned was visual notetaking, also known as sketchnoting, which involves using doodles to capture the important points of a lecture or text. Outlining: Whether you use Roman numerals or bullet points, outlining is an effective way to capture the hierarchical relationships between ideas and data. In a history class, you might write the name of an important leader, and under it the key events that he or she was involved in. Under each of them, a short description. (A more concise version of this will be published in my college's newspaper on Thursday. I will likely add or link diagrams and examples to this post, so you can check the original here.). As a tutor, many students ask me for tips on making study guides. Let's talk about note-taking. Every day, in classrooms all over the world, students are taking notes. I have my own half-baked ideas about what makes one approach better than another, and I'm sure you do too. But if we're going to call ourselves professionals, we need to know what the research ...
