Anchor: #i1013823 Section 5: Performance Graded Binders (PG Binders) Anchor: #i1013829 5.1 General. The Strategic Highway Research Program (SHRP) produced a system of materials selection, testing, and mixture design named Superpave, for Superior Performing Asphalt Pavements. All prices are based on US funds. When an alternate currency view is selected, the converted prices shown are estimates. Final currency exchange, from US funds to your local currency, will be determined by your bank card institution or will be reflected on your AGCO Dealer statement. Welcome to the Textron Aviation Technical Publications Home Page. This website includes technical publications data and documents for all three Textron Aviation brands: Beechcraft, Cessna and Hawker. A guardrail system can be used as a barrier installed to prevent workers from falling off a work surface edge to a lower level. Guardrail systems can be used on many work surfaces, including rooftops, platforms, mezzanines, balconies, scaffolds, incomplete decked floors, catwalks, observation platforms, mobile work surfaces and ladderway points of access.
