At the Practical Ethics blog, you can find daily ethical analysis of news events from researchers in four centres based at the Philosophy Faculty, University of Oxford. Eugenics (/j u? ? d? ? n ? k s /; from Greek ?????? eugenes 'well-born' from ?? eu, 'good, well' and ?????? genos, 'race, stock, kin') is a set of beliefs and practices that aim to improve the genetic quality of a human population by excluding (through a variety of morally criticized means) certain genetic groups judged to be inferior, and promoting other genetic groups ... Jeremy Bentham (/ ? b ? n ? ? m /; 15 February 1748 [O.S. 4 February 1747] – 6 June 1832) was an English philosopher, jurist, and social reformer regarded as the founder of modern utilitarianism.. Bentham defined as the "fundamental axiom" of his philosophy the principle that "it is the greatest happiness of the greatest number that is the measure of right and wrong." Most people will agree: Getting too little sleep is bad for you. But just how bad? Experts and researchers say it goes far beyond being groggy on the job or being too sleep-deprived to make good decisions. Recent research shows that people who get less than six hours of sleep and who already have risk factors for heart disease, diabetes or stroke might be doubling their odds of dying from ...
