User manuals, Yamaha Motorcycle Operating guides and Service manuals. The RD350 is a two-stroke motorcycle produced by Yamaha from 1973 to 1975. It evolved directly from the piston port (pre-reed valve intake tract), front drum-braked, five-speed Yamaha 350 cc "R5".. The engine is an air-cooled, parallel twin, six-speed (in some markets, such as the UK, the first model was sold in five-speed form), reed valve-equipped intake tract two-stroke engine. The Yamaha FJR1300A and FJR1300AE/AS are sport touring motorcycles made by Yamaha Motor Company. Both models have a 1,298 cc inline-four engine. The AE/AS model has an electronically controlled clutch and gear shifting system called YCC-S. The clutch and transmissions of the AE/AS models are identical to that of the standard FJR model.
